OVERVIEW

About Us

Activa Inc. is committed to the research & development of cooling fans & motors. Based on more than 20 years of experience in mold and component plastic injection manufacturing, SYM BANG has become a specialist manufacturer of exhaust fan through its advanced technology and full line of ventilation system.

The most advanced testing facilities in the industry are continuously being utilized by our application engineers in conjunction with production engineers to push to the limit both designs and material to formulate the next generation of commercial ventilator fan. In addition to 100% on-line testing, SYM BANG performs periodic audits on each product to assure precise quality control.

All SYM BANG fans are designed to meet the UL, CSA, TUV, CE & CUL requirements. SYM BANG had set up a quality assurance process standard for production and quality control. All SYM BANG products are subjected to a meticulous final inspection before delivery to customers.

Our management's commitment to total quality control (TQC) makes SYM BANG's fans highly reliable and competitive. New products are added regularly. We are available for special design requirements and modifications of our existing product line.

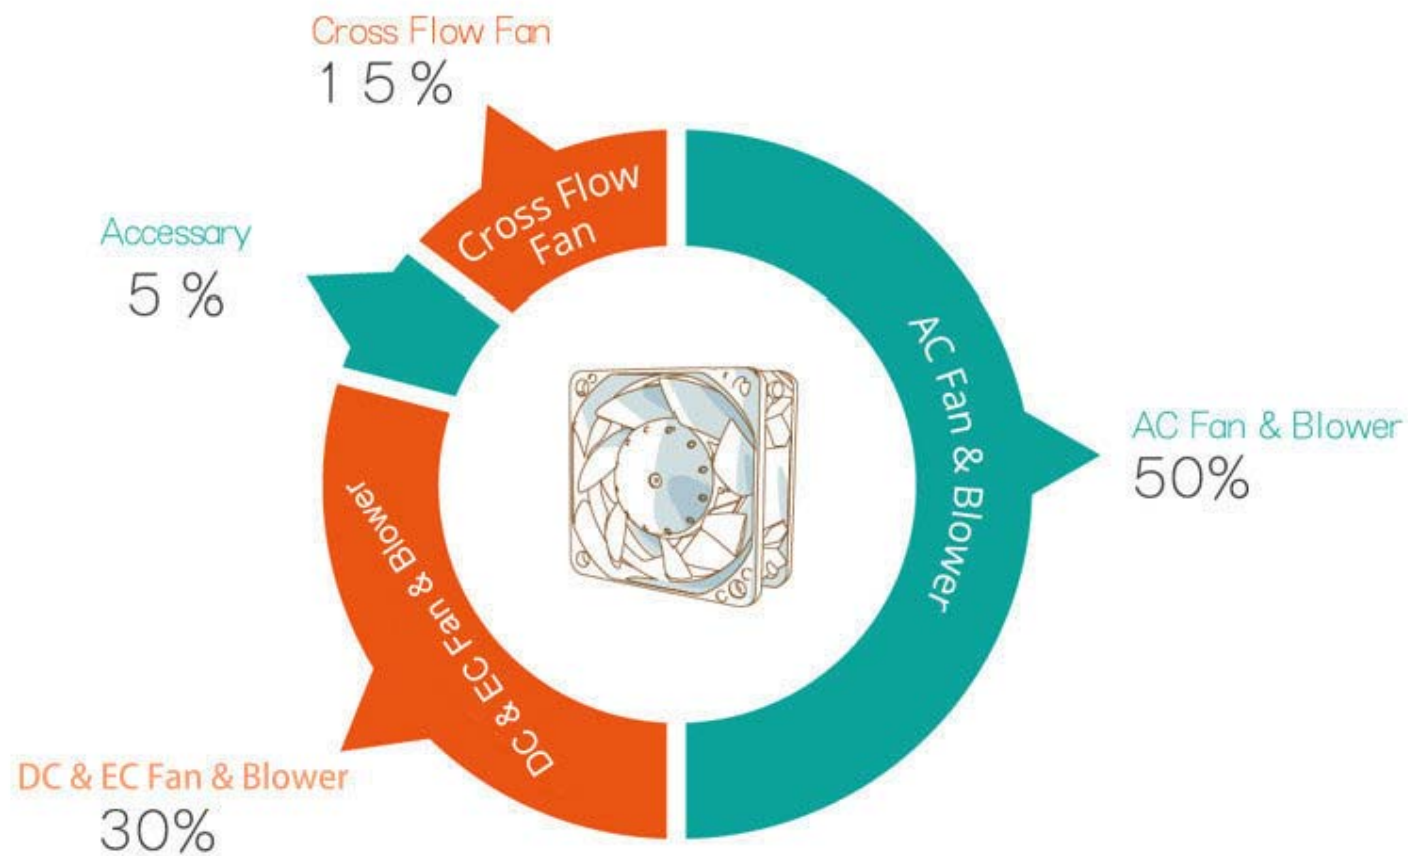

MAIN PRODUCT LINES

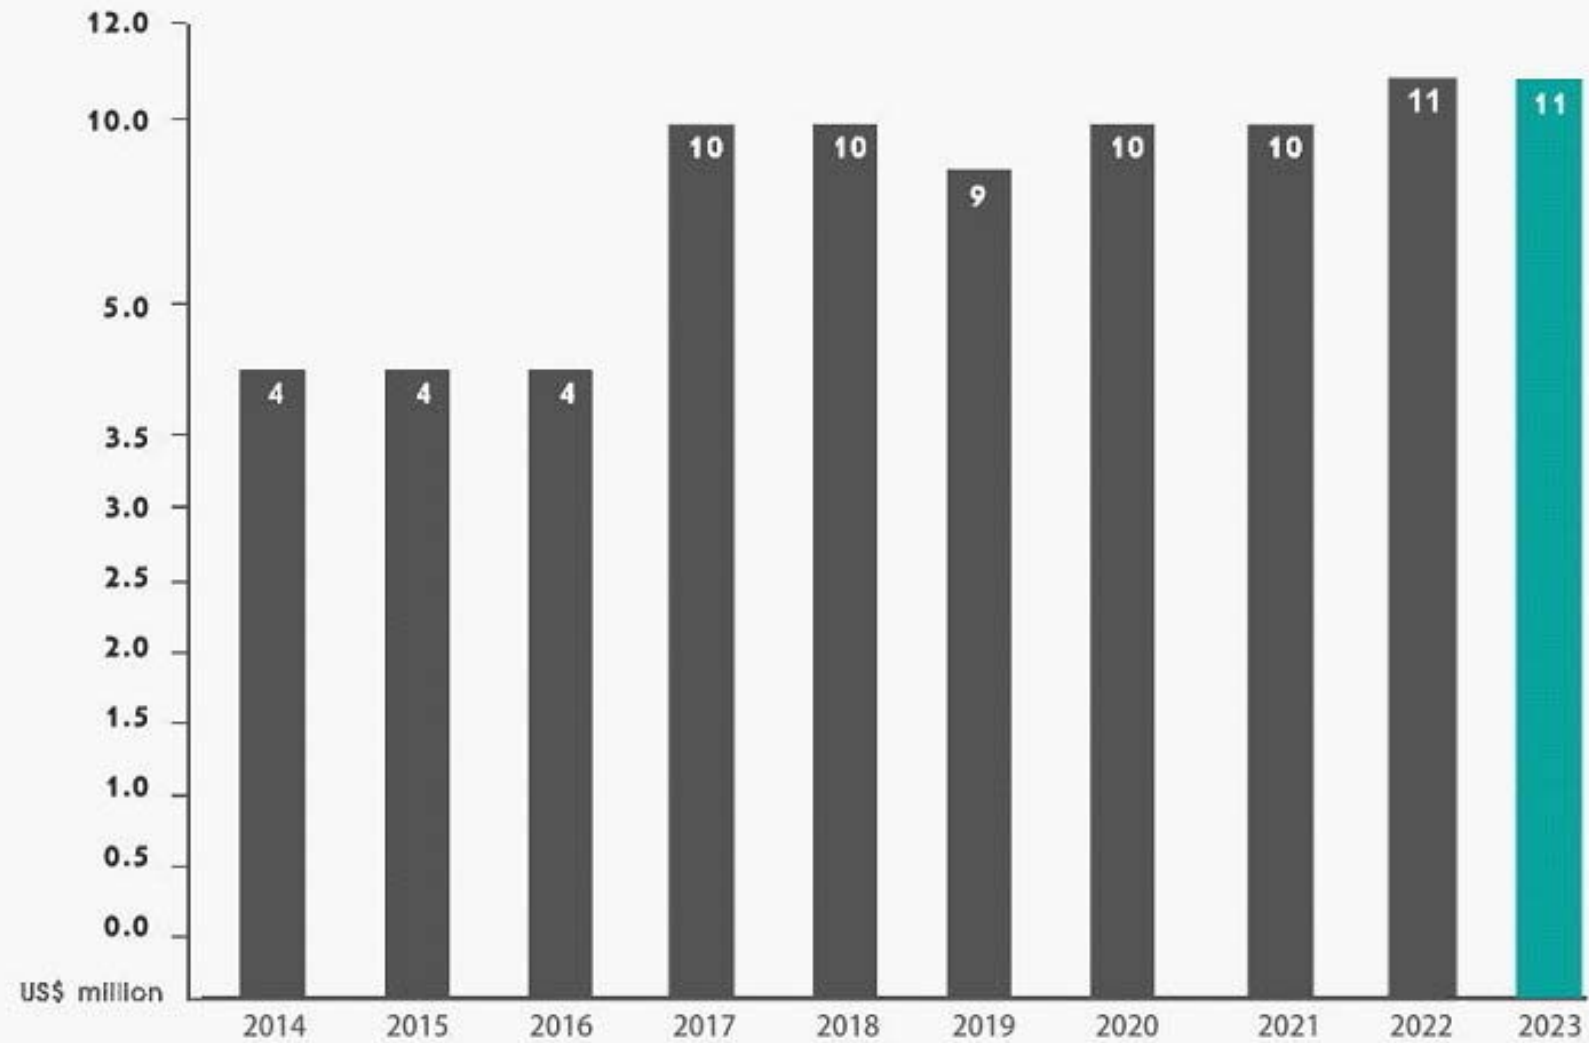

<p>1</p>  <p>AC/DC/EC Cooling Fan & Blower Size: From Ø15mm to Ø280mm Flow: 0.3CFM to 1450CFM</p>	<p>2</p>  <p>AC/DC Cross Flow Fan Size: From Ø25mm to Ø150mm Flow: 9CFM to 1770CFM</p>	<p>3</p>  <p>AC/DC/EC Centrifugal fan Size: From Ø133mm to Ø404mm Flow: 145CFM to 2100CFM</p>	<p>4</p>  <p>Fan Accessories - Plug Cord - Plastic/Metal Fan Guard - Ventilator Filter - Fan Snap Rivet</p>
<p>5</p>  <p>Duct Fan Size: From Ø10mm to Ø200mm</p>	<p>6</p>  <p>Misting Fan</p>	<p>7</p>  <p>Blade Ø320~Ø700mm</p>	<p>8</p>  <p>EC Stand Fan 14" & 16"</p>
<p>9</p>  <p>Outer Rotor Motor Type Size: From Ø200mm to Ø800mm</p>	<p>10</p>  <p>Sirocco Blowers Size: From 144mm to 411mm</p>	<p>11</p>  <p>Ceiling fan 1070~1320mm</p>
